

ESTP

Your life's motto: "Let's get busy!"

Quick thinker and reactor, good at keeping cool under stress, likes interacting with people, curious, observant, good problem solver, risk-taker, loves excitement, realistic, pragmatic.

Your life's challenges:

Think before you act

Consider people's feelings

Follow through on your commitments

You are especially satisfied with work that:

Lets you meet and interact spontaneously with many people

Lets you use your powers of observation and remembering facts

Lets you use your problem-solving abilities

Is active, full of adventure and fun, and allows you to take risks

Lets you respond to unplanned situations

Takes place in an environment without a lot of rules or restrictions

Does not involving organizing yourself according to someone else's standards

Is practical and logical, where you can use your reasoning abilities

Leaves you free to respond to a crisis and work in an expedient manner dealing with pressing issues

Involves real people and things, not theories or ideas

Some careers you may find particularly satisfying; this is not a full list of careers, just some possibilities.
