

ISTP

Your life's motto: “Doing the best I can with what I’ve got”

Quick thinker, efficient, good decision maker, works well alone, enjoys the outdoors and being physically active, likes working with hands and 5 senses, great observational powers, good memory, practical, realistic, loves sports & coaching, very hands-on.

Your life's challenges:

Communicate

Consider people's feelings

Follow through on commitments

You are especially satisfied with work that:

Lets you identify and use resources that are available in the most efficient manner possible

Lets you practice, master, and use skills you have acquired, especially mechanical skills or those requiring the use of tools

Lets you apply your understanding and technical knowledge of the world around you and engage in troubleshooting and problem solving

Has clear directions, where you can work and deal with real and practical products

Is fun and active and lets you work independently with frequent opportunities to get out of your workspace and be outdoors

Is done in an environment without excessive rules, where you can enjoy spontaneous adventures and step in to manage a crisis

Lets you work with minimum supervision, and where you are not required to closely supervise others

Gives you plenty of time to pursue you interests and hobbies

Gives you a substantial amount of enjoyment and is continually challenging

Lets you use an economy of motion and energy, does not require needless routine or procedures

Some careers you may find particularly satisfying; this is not a full list of careers, just some possibilities.
